

THE TRIBUNE. SATURDAY MORNING, OCTOBER 7.

FOR PRESIDENT. HENRY CLAY, OF KENTUCKY.

Democratic Whig Senatorial Convention.—FIRST DISTRICT.—At a meeting of this Convention held on the 12th day of October, 1862, the following resolutions were adopted:

Resolved, That the next Senatorial Convention of this District be held at the Broadway House in the City of New York, on the second Tuesday of October, 1863, at 12 o'clock, M., and that the Chairman and Secretary give due notice thereof.

Resolved, That we hail, with unmingled joy and triumph, the fact that, in all sections of the Union, and by all varieties of party sentiment, HENRY CLAY is now unanimously recognized as the sole candidate of the Whig party for the Presidency of the United States.

Resolved, That, having had no solemn lesson on the selection of a Vice President, if we do not profit by it now, we will never derive success or attain it.

Resolved, That, having before suffered by the selection of a false friend of HENRY CLAY, hereafter we will tolerate no candidate for the Vice Presidency who is not a true, warm, steady and devoted friend of him whom we recognize as the life, soul and center of the Whig party, and as the embodiment of true Whig principles.

The Rochester Evening Post, which claims to be a neutral paper, but, like all journals of the same gender, has assiduously played into the hands of the Loco-Focos, rebukes the Argus for its assaults upon the farmers who attended the late State Agricultural Fair, and says that that paper "does not display its usual tact in representing its party as hostile to, and the opponents of its party as the only advocates of, a Protective Tariff."

But it will prove a hopeless effort. The war against Protection has been waged too long, too violently and too manfully to allow any such retreat. Meantime, the attempt speaks volumes in arraignment of the friends of Protection.

POPULAR FLATTERY.—The Loco-Focos used to be adepts at flattering the feelings and passions of the 'dear people.' Honeyed words, profound regard and unbounded promises were freely lavished upon them. They were the 'sovereign,' the 'pure,' the 'intelligent,' the 'infatigable' people—while they kept their flatterers in power.

Thus speaks the Springfield (Ill.) State Register, and thus speak every Loco-Foco Convention and every Loco-Foco paper. It is absolutely necessary, in the view of the party, that, as the people have once triumphed over Mr. Van Buren, he should now triumph over them, else he will be forever disgraced!

THE WHIGS OF MONROE COUNTY have nominated for Members of Assembly—Moses SPERRY, of Chili, FREDERICK STARR, of Rochester, and EDWARD WADSWORTH, of Perinton.

THE LOCOS OF MONROE COUNTY have nominated for Members of Assembly—ASHLEY SAMPSON, of Rochester, J. B. SMITH, of Riga, and WM. SHEPARD, of Irondequoit.

THE ROCHESTER DEMOCRAT points out the absurdity, in one particular, of depending on England for a market for our agricultural productions, and of sacrificing a home market for that reliance.

CITY INTELLIGENCE. BY THIS MORNING'S MAIL.

The Whig Triumph in Maryland. The returns by the Southern Mail this morning are sufficient to place the fact that the Whigs have triumphed gloriously in Maryland beyond all doubt. They have swept the State, thoroughly, with a heavy vote on both sides, and after a most vigorous and spirited canvass. The following table of the Delegates elected comprises all the results reported by the American:

Table with 4 columns: County, W. L. F., Counties, W. L. F. Rows include Allegheny, Anne Arundel, Baltimore City, Baltimore County, Carroll, Cecil, Charles, Frederick, Harford, Howard, Kent, Montgomery, Prince George's, St. Mary's, Talbot, Washington, and Worcester.

The Whig gains so far are two in Anne Arundel, four in Baltimore City, two in Frederick, two in Montgomery, one in Carroll—making a total gain of eleven. Besides these there is a reported Whig gain of one in Allegany, and one in Washington County, balanced by the loss of two in Cecil county.

Last year the Loco Foco majority in the House was twelve—the Whigs having 35 and the Locos 47. The Whig gain of eleven delegates makes a difference of 22—so that if the Counties remaining to be heard now stand as last year, the Whig majority in the new House will be ten.

The American looks for Whig gains in several of the counties yet to be heard from. Without any further changes, however, the result now ascertained—the Senate being also Whig by a majority of five—will secure the election of a Whig U. S. Senator for the ensuing six years, and likewise a just division of the State into Congressional Districts.

GEORGIA ELECTION.—An election was held in Georgia on Monday last for a Governor of the State, two Representatives in Congress to supply vacancies, and for Members of the State Legislature. We have received no returns except from Richmond County, where the Whigs have succeeded in carrying their entire ticket by majorities of from 150 to 200 votes, which is a gain over last year of two members in the Legislature.
